

## ENTRANTS FOR DISTRICT FIELD DAY, WEDNESDAY, AT BLISS READY

Track and Field Competition Promises to Be Keenest Held in Many Months; Unusually Large Number of Entrants Due to Completion of Cinder Track; Many Boxers Will Also Be Seen in Action in the Ring.

WITH every plan completed so that not a hitch will occur in the staging of the district field day, Wednesday, at Fort Bliss will undoubtedly be the most popular gathering of amateur athletes that has ever been held in this district. Lieut. Charles E. Gross, district athletic officer, who has been unswerving in his survey in arranging the program and all details for the field day, Monday afternoon, at which all preliminary arrangements leading to the success of the meet were completed. The program events will start at 8:30 a.m.

**Meet Program Out.** Every track and field event on the program will be staged during the program which will be held in the military style. Lieut. Gross has completed a combination program and score card for the meet giving a description of each and every event, outlining the rules under which all athletes enter, their uniform, equipment, if called for, and providing a list of the judges and officials. The program is being distributed separately and if any one is unfamiliar with the program, a copy of the program can be obtained from the district athletic officer.

**Afternoon Events.** Mounted events will start at 1:30 p.m. in the afternoon, Monday, following the dismounted events which will be held in the morning. Following the track and field events there

## DEMPSEY SLOWS OLD RIVALS ARE UP HEAVY WORK TO MEET AGAIN

Challenger Stops Boxing Because of a Bad Cut Over His Left Eye.

Toledo, Ohio, June 18.—Because of danger of infection, Jack Dempsey, manager of Jack Dempsey, challenger for the world's heavyweight championship, today decided not to allow Dempsey to do any more boxing until the wound over his left eye, inflicted in a training bout yesterday, is thoroughly healed. Physicians took two stitches in the inch long wound.

**Continue Light Work.** Dempsey will continue his road work and other exercises until the wound is healed, which probably will be in two or three days. Willard said today that his training had never been so easy for him as it has been for his opponent, championly boxer, Road work used to be punishment of the sort that for me," the champion said. "My feet always ached as heavy as lead, and I was tired and lame at the end of the day. I used to confine myself to three miles of it. Now, however, it is really a pleasure. I seem to have more energy than ever and seem to go along faster. I went between five and six miles yesterday and felt fresh and strong at the finish."

**Boxers With Partners.** He boxed three rounds each with Hirsch and Walter Marches and was knocked out Monday. The champion was apparently afraid to fight Hirsch. Willard initiated the style of Dempsey while following Hirsch around the ring, much to the amusement of a big Monday crowd. "Big Jim" punched as Dempsey does, and shifted and feinted his way into close quarters. Dempsey opened his workout facing Jack Rose, a 260 pound youth from Winthrop, who claims the heavyweight championship of Canada. Within 10 seconds Rose was on the canvas, completely knocked out. Dempsey closed him after 10 seconds of boxing with a short right hand punch to the chin. After Rose staggered to his feet, the challenger whipped over a left hook, which finished the job.

The challenger then stopped two furious rounds with veteran Bill Tate, and was in the middle of the first round with the Jamaica Kid when the round was ended. Dempsey planned to be allowed to continue, but was overruled. He left the ring in humiliation, saying to the crowd in a hoarse way: "Accidents will happen, you know."

## Bobby Burns May Go to Columbus

Brig. Gen. James B. Erwin, district commander, Monday afternoon advised the southern department commander of Fort Sam Houston, Texas, that he had been offered a position in the army and he was ready to proceed to Columbus, N. M. Orders affecting the transfer of Burns are expected to be received within a few days. Burns announced Monday that he would like to bring Mike Riley, the slugging boxer, some other southwestern point for a bout on July 4. Riley is now in Dallas on the Interstate vaudeville circuit and is said to be one of the fastest and most entertaining boxers in the south.

## Duty Dodgers and Terriers, Engineers and the Zone Teams Clash Sunday.

Diamond warfare in which no prisoners will be taken and each team will be in the game to win from any angle that it possibly can will be the order of the day next Sunday afternoon when the Army and City League schedule is resumed at El Paso Grande park.

**Some Real Games.** Survey of the schedule of the regular weekly meeting of the managers of the teams and officials of the league Monday night showed that the Duty Dodgers and Terriers—present league leaders—are billed to meet in the first game of the week and double bill, while in the second tray Johnny Mutchy will attempt to repeat his victory over the Eighth Engineers, supported by a much strengthened team. The Saturday afternoon battle will bring together the Feldman and 6000 team and as such of these clubs will be more strengthened a snappy game is anticipated.

**Terriers Are Confident.** Fans will recall that the only team which has won the Seventh Engineers during the schedule has been the Terriers with the exception of the 4000 boys. About two weeks ago Mutchy pitched out the cavalrymen down with a few hits and only two runs while the Terriers snatched around four times. Since that event the Terriers have attacked the leadership of the Seventeenth column, however, and it is with renewed confidence that they will meet the Dodgers in the first Sunday game. Mutchy, captain of the Terriers, will also present a strengthened team.

One of the principal matters considered by the committee at the meeting was the proposal to request the city council for the services of a man to take care of the park. The city has received an average of \$100 per week from the army and city baseball leagues since the inception of the schedule several weeks ago and the baseball enthusiasts feel that in view of the fact that this amount is coming in regularly the city could well afford to employ a laborer out to water and roll the grounds once a day anyway. The matter will be taken up with mayor Charles Davis within the next few days by a committee from the league.

**Reverend Bushnell.** Maj. T. J. McCann, president of the league, told the committee that Maj. T. J. McCann had been lost since the start of the season due to the change of a number of the players when he employed to chase down all balls knocked over the fence. The increase of the price of admission to the games was discussed by the committee at length, but after it had been considered for some time it was thought advisable to continue the present scale of prices for one or two more weeks. "While this time it is hoped to have a roof placed over the bleachers while each section will be made thoroughly waterproof to protect the fans in the event of rain."

Maj. Conlin announced at the meeting that the zone office would take as broad as 200 tickets while the Eighth Engineers will also take a large number for the Sunday game.

## SNAPPY GAMES TWILIGHT

Battery A, 2nd field artillery, went down to defeat before the onslaught of Battery C, Monday evening in the Twilight league game at the artillery regimental camp by the score of 18 to 2. The contest was pretty played despite the heavy score which was made as a result of the tremendous hitting powers of the victors. The game was witnessed by a large crowd of artillery men and visitors who are taking an active interest in the affairs of the league.

| Team                 | Wins | Losses | Runs  |
|----------------------|------|--------|-------|
| B Battery            | 1    | 0      | 1,000 |
| D Battery            | 1    | 0      | 1,000 |
| Engine Company       | 1    | 0      | 1,000 |
| F Battery            | 1    | 0      | 1,000 |
| C Battery            | 1    | 0      | 1,000 |
| E Battery            | 1    | 0      | 1,000 |
| Headquarters Company | 1    | 0      | 1,000 |
| A Battery            | 1    | 0      | 1,000 |

## Veteran Referee Gets Invitation

Billy Smith, city detective and veteran boxing referee, has received an invitation to attend the heavyweight championship bout at Toledo, on July 1, between Jack Dempsey and Jess Willard, accompanied by two ringside tickets valued at \$50 each. Promoter Tex Rickard is an old friend of referee Smith and in a personal letter to the veteran asked that he be his guest at the ringside when the big boxers meet in the ring.

## Chet Neff Wins Over T. Carter

Globe, Ariz., June 18.—Chet Neff of Seattle, and Tommy Carter of El Paso, battled ten rounds in a draw before the Midland City Athletic club Monday evening. The vast crowd present manifested its disapproval at the decision by booing referee Powell from the ring. Neff was the aggressor throughout the entire fight, running Carter through the ropes in every session. Carter might have been given an even break in the tenth round, but Neff easily walked off with the honors in the other nine.

## Engineers Win From the Fifth

Maj. R. B. Maynard's Eighth engineers baseball team maintained its consistent record in the Army baseball league Monday afternoon at Ft. Bliss by defeating the Fifth cavalry nine by the score of one to nothing. The game was prettily contested and was a pitcher's battle between Ben of the Engineers and Teller, the twirler of the cavalrymen. A large crowd of Ft. Bliss baseball fans witnessed the game. The Engineer team is scheduled to clash with the Tenth supply club next Sunday afternoon at El Paso Grande park.

### "Ocean" And "Ranger Central"

WE ALL HAVE WON!!!

The Perkins Well on the tract adjoining "Ocean" and "Ranger Central" is IN flowing 5,000 barrels and has just touched the top of the sand. When this well is drilled deeper into the sand it is expected to be as large as the Norwood and may be larger. The long expected has happened. Authorities on the field predicted that this part of the field would produce larger wells than the Norwood. The Perkins is likely to be larger.

The Allen Well, less than half a mile east of "Ocean" and "Ranger Central," will also make about 5,000 barrels, when the well is completed. It is now making 1500 barrels and 20,000,000 feet of wet oily gas at present.

Crowds of automobiles from all parts of the country are visiting these wells. Excitement is intense. Hopes are running high for those who hold property in this region.

It will be perhaps thirty days before "Ocean" is completed. "Ranger Central" is drilling. We advise you to hold your stock. You can get \$2.50 or \$3.00 for it, as easy as you can \$1.50 today. The wells are deep and long-lived in the Ranger district. They will last anywhere from three to twenty years. Hold your stock as a permanent income investment. Do not sell it for less than \$2.50 or \$3.00.

"Ocean" and "Ranger Central" are now absolutely proven to be valuable holdings. So you should worry!!!

The management is in the hands of capable responsible men and you are assured of a square deal. We have lived up to every promise we have made. You invested for dividends and that's what we want to get for you.
